Number 23

Here and There

WARS COST—TO YOU

That war's tenacles reach deeply into society—whether you win or lose has been brought before north Americans by the amazing divorce rate in the United States. In 1945 there were 31 divorces for every 100 marriages. Roughly one divorce for every three marriages. This is double the post war rate and looks particularly bad when the marriage rate has gone up only 11.4 per cent. Why the United States should have the highest rate in the world is difficult to decide. Why the rate is rapidly increasing is worrying officials. In 1887 one marriage out of 17 ended in divorce. Today it is one out of 3 with no decline promised.

Who are the divorcees? The most divorced groups are actors, travelling salesmen and bartenders; the least, farmers, civil engineers and firemen. City couples get twice as many divorces as those who live in the country. In the two cities of Oklahoma and Dallas in the first 10 months of 1945 there were more divorces than marriage.

What part do children play in the rate? 8 percent of homes with children are broken up. 71 percent of childless homes end in divorce. It would appear that here lies the main spring to the trouble.

One fact, difficult to account for, is the rare divorce rate where both parents are University graduates. Only one in seventy five such marriages end in divorce. Can you say why?

Most people will carelessly decide that it is the result of hasty war marriages. Such is not the case. While war marriages are shaky, and while most divorces come from the first year of marriage the facts do not allow one to blame it all on to war sentiment. Others lay the blame on loose living, others to the economic independence which women have won and which they are loath to give up.

If divorce were just a private matter it might be less serious. The bad social effects have to be considered in the light of increasing divorces. One of the worst results is its tendency to increase juvenile delinquency. Competent Judges place broken homes as the number one cause for 80 percent of youthful crimes. Whether you agree with this conclusion or not you will agree with Judge Feinberg when he says, "No community can remain law abiding if the very foundations and structure of society are shattered by the destruction of the family and home through the curse of divorce."

Welling

NEWS NOTES

By Mrs. E. K. Bullock

Miss Faye Stringham and Miss Lela Chipman are leaving soon for Olds where they are going to attend Agriculture School.

Miss Doris Weinheimer has been a patient in the University Hospital for about two weeks.

An addition of two rooms and basement is being made to one of the teacherages to accommodate Mr. Nelson and family.

Beet harvest is in full swing again after the rain. The ground is still very muddy. A number of farmers have bought beet toppers and loaders.

Mr. and Mrs. Vorn Wilde of Santa Ana California and their daughter Mrs. Ethel Meham of Mesa Arizona are visiting relatives here.

STIRLING

NEWS NOTES

By Mrs. Lief Erickson

Mr. and Mrs. Albert Brandley and daughters Patricia and Mona, left on Wednesday for a motor trip to Salt Lake City, where they will meet and visit with their daughter and son-in-law, Mr. and Mrs. Guy Alexander. They will also attend the General Conference.

Mr. and Mrs. Rulon Hirsche are proud parents of a nine pound son, born Thursday, October 3rd at the Galt Hospital.

Mrs. Ada Larson, old time resident of Stirling is visiting here with her daughter, Mrs. Perry Barton.

Mrs. Bertha Oler has returned home after a month's stay at Magrath, where she visited friends and relatives.

The Relief Society Opening party held on Tuesday October 1st, was at the Community Hall and proved to be a very successful affair. This party also honored eight retiring officers. Hall, and tables were nicely decorated with fall flowers, blue and yellow candles and bowls of shiny red apples. The opening exercise was conducted by Mrs. Ruby Erickson and the following program was given: Accordion solo, Ellen Nelson; Reading, Margaret Zaugg; Ladies trio, Velda Hirsche, Margaret Young, Ellen Nelson; Sense and Nonsense, Verda Michelson; Solo, Louie Brandley; Piano Solo Lellie Oler.

A lovely lunch was served after which toast to the honored guests was given by Norma Christensen and the response by retiring President Winona Nelson. Corsages were also presented by President Eudora Oler. The remainder of the afternoon was spent playing "Bingo" prizes going to many of the ladies. About sixty ladies attended.

Mr. and Mrs. Farrel Nelson had as their guests on Sunday evening the Y.W. and Y.M.C.A. officers and their partners, also the Bishopric and partners to a very pleasant fistic hour. A dainty lunch was served by the hostess, after which plans discussed and arrangements made for the opening M.I.A. Social.

A miscellaneous shower was held Friday evening honoring Mrs. Steve Szabo, a British war bride. The hall and tables were artistically decorated in autumn colors, the Thanksgiving idea being carried out. The teenagers gave a very snappy program with Mrs. Hortense Hirsche in charge. A delicious lunch was served after which the bride was presented with many lovely and useful gifts which she graciously accepted.

Mrs. Steve Szabo Sr. of Milk River was an out of town guest.

The M.I.A. officers sponsored a very inspirational program at the Sunday evening service.

The meeting was very ably conducted by Mrs. Ellen Nelson, Y.W.M.I.A. President. W. Jorgensen was the principal speaker. Musical numbers included an instrumental duet by Melvin Spackman and Grant Erickson; special numbers by the choir, and a ladies trio by Louie Brandley, Gladys Perritt and Margaret Young. Mrs. Elodia gave a delightful reading.

Little Carmen Brandley suffered a rather serious injury this week while playing near the school swings. She was struck by the swing board just above the eye, causing a nasty cut, requiring six stitches, also she suffered slight concussion. She was immediately rushed to the Doctor and is now convalescing under his care.

Doug Christensen is convalescing at his home after his appendicitis operation.

Snaps and Scraps

National Bible Week is set for Oct. 21-27 with the hopes that all adults as well as children will read the Bible.

The M.G.M. \$125,000 novel prize award has been awarded to an English writer, Mary Renault (pseudonym), for her novel, "Return to Night," which will be published during 1947.

The 28th annual O. Henry Memorial Prize award for the best short story has been awarded to John Mayo Goss "Bird Song". Margaret Shedd won second for her "The Innocent Bystander", third prize was won by Victor Ullman for "Sometimes You Break Even".

In India 169 babies out of every 1000 die while infants. But the birth rate is so high that the population is rising some five millions a year.

Britain has 100 people to every square mile while Canada has but 3 1/2. Many Europeans as well as British are looking towards Canada for a new home. Will the immigration laws be made so that they can come and if they do come will they make good citizens? This question might very well play a large part in the next Dominion election.

In the art of make-up for drama a negro actor Canada Lee was made up to have a white face in his role as Daniel De Biosa, in the drama "The Dutchess of Malfi".

One Chicago Judge has had hearings for 2,000 divorce cases in the last four months. The American people hold the world record for divorces. Last year there were 31 divorces for every 100 marriages.

From the fashion world of New York City, comes word that Milad will wear a white hat with her charming new black fur coat.

An Arab removes his shoes when going into a holy place because it is more practical than taking off his hat or turban which takes some time to replace on his head.

The last large nation to have a flag is the Soviet Union. From the revolution of 1917 comes the red field with the sickle and hammer and the single red star. The red was chosen as a symbol of revolution and the blood of those who fought for its cause. It is also supposed to represent the common humanity of all people. The sickle is for those who live by the soil, the agricultural workers of whom Russia is so proud. The hammer is for industrial workers, men and women of the great factories of Russia. The single red star is the symbol of the government of the Soviet Union or the Union of Soviet Socialist Republics.

On the High School reading course this winter we find listed Matthew Halton's book "Ten Years to Alamein". Matthew came to Southern Alberta as a very young boy from the mother land. He won the first W.L. scholarship to the U. of A. where he studied journalism. He was foreign correspondent for a Canadian news paper at the time of the first Nazis party 1933. Matthew Halton was the first correspondent to strike out at the Nazis party, for which he was all but called home. Today more people listen to him on the radio than take time to read his reports. Those who do read find pleasure in his easy flow of the English language and the clear cut style in which he writes. He is known as a man who tells what he sees, in the way that he sees it. At times this method has caused him no end of trouble. Matthew Halton has lived more than ten years on the battlefields, as he has covered the wars from Ethiopia to the fall of the German army. His wife and family now live in England but his father and mother still live in Pincher Creek.

Funeral Service For Thomas Hicken

Funeral services were conducted in the Stake House Thursday, for Thos Hicken, old time and highly respected resident of Raymond. The many beautiful floral offerings and the large attendance of friends and neighbors, reflected the esteem held for the deceased and surviving widow and family. C.R. Wing of the 1st ward Bishopric was in charge, with Kenneth Stone directing the choir and Rol Stone at the organ. Special musical numbers included a solo, "What Voice Salutes the Starlight" by Reece Gibb and invocation rendered by the Frank Taylor Quartette. Speakers were Solon E. Low and Heber F. Allen, both intimate friends of the deceased and his family. Pallbearers were six of the sons: Orvin, Rulon, Mac, Albert, Rufus and Warren. Interment was in the local cemetery.

A. M. Bradley Transferred

A.M. Bradley, accountant at the Bank of Montreal for the past four years has been transferred to Red Deer and left Thursday to assume his duties there.

V. J. Harney of Viking, Alberta has been appointed accountant to replace Mr. Bradley and will arrive shortly.

Brad, as he was known among his many friends here was very active in the community and served as Secretary to the Stampede Association for the four years he was here. He was also an active Lion and served as Secretary to the Local Lions Club for a number of years. His absence from the activities of the community will be keenly felt.

Raymond to be Represented in Calgary Herald Road Race

Rudy Audinaert, of Raymond, Provincial Junior Champion for 3 miles will represent Raymond in the Calgary Herald Road Race to be run Thanksgiving Day in Calgary.

The Road Race has been run 27 years and was inaugurated in 1920. The record for the race is held by Hartington Anderson of Denmark and was set in 1932 when he ran the 6.147 miles in 32 minutes, 39 3/5 seconds. In that year Jerome Platt, well known business man here in Raymond ran a close second. Out of seven tries at the race Jerome placed first once, won second place three times, third place twice and once in fourth place.

Rudy Audinaert has just turned 19 and this will be his first try at the race which is run on the streets of Calgary. The race was originally staged on Christmas day but is now run on Thanksgiving.

Local Happenings

Reported by Elsie Mitchell

Mrs. Booth Card and small son of Calgary were Raymond visitors this week.

Mr. K. L. Restall is visiting in Victoria B.C.

R. T. Graham has a new Hudson motor car on display in the show room at Graham Motors.

Nicki Widgill celebrated his 9th birthday by entertaining 12 of his friends Monday. Games and lunch were much enjoyed.

Mrs. Ezar Fairbanks and son Max accompanied by Mr. and Mrs. Kloth Karren of Magrath were Calgary visitors last week and enroute home visited Mrs. Fairbanks sister Mrs. Cliff Sturgeon at Olds.

Funeral Services For Mrs. J. D. Hall

Funeral services were held Saturday in the Second Ward Church for Mrs. J. D. Hall, Reverend Lark conducting the service.

Special musical numbers were rendered. Mrs. Lark, accompanied at the piano by Mrs. Ralph Byrne sang "Sometime We'll Understand" and "Beautiful Sunset" was rendered by Mrs. L. D. King and Mrs. J. H. Walker, and "Rock of Ages" by Mr. and Mrs. J. B. Harker.

Words of comfort and consolation were spoken by Rev. Lark and Mr. J. H. Walker spoke of the life of the Hall family in Raymond where they have lived for many years. Pallbearers were all grandsons. Interment was made in the local cemetery.

She leaves to mourn, her husband, three sons, Frank of Raymond; Irving of Portland; and Dudley of Seattle, and one daughter Mrs. Mahel Veen of Raymond. Also one sister living in the States.

Melchin Motors Enlarge Premises

Work commenced this week on the new addition to Melchin Motors. The addition will be of older brick and will house the work shop. The addition will give considerable more room and convenience in car and truck repairs.

Farewell For Reed Walker

The Sunday evening service in the Second Ward October 13 will be a farewell Testimonial Meeting in honor of Reed Walker who is leaving soon to fill a mission in Texas and Louisiana Missions. The meeting will convene at the usual time, 7:30.

Dates for 1947 Stampede Set for July 1-2

The final meeting to wind up the 1946 business of the Stampede Association was held on Monday evening. Due to the resignation of A. M. Bradley as Secretary a financial statement was given and the books turned over to the chairman. In appreciation for his services as Secretary Mr. Bradley was presented with a cowboy belt and silver buckle.

The date for next year's show was set for July 1st and 2nd, 1947.

A general meeting is to be called in the spring to complete the organization and start plans for the new show.

Mrs. Betty Watson, British War Bride who arrived in Raymond two weeks ago was honored Thursday evening with a shower in the 2nd Ward Recreation Hall.

During the evening a reading was given by Miss Eleanor Ehlert and vocal solos were given by Mrs. Nora Stone and Miss Karen McLean.

Long tables displayed the lovely gifts and a dainty lunch was served in the Relief Society Room.

Seventy five ladies were present. Out of town guests included Mrs. George Card, Mrs. Cyrus Card, Mrs. Elzada Ririe, Mrs. Maisie Toomer and Mrs. Shirley Karren all of Magrath.

Members of the Readers Progress Club met at the home of Mrs. Irene Cooper Wednesday afternoon. The new President Mrs. Velva Cooper was in charge and after the business of the club Mrs. Dora King gave parts of the book "Try and Stop Me" by Bennett Cerf, which was very much enjoyed. Mrs. Laura Hirsche was assistant hostess.

Mr. and Mrs. Eri Nilsson have returned from their trip to the coast.

Born to Mr. and Mrs. Douglas Duncombe, Saturday, October 5th, a baby girl.

Mr. and Mrs. George Heggie entertained last Friday night in honor of Mrs. Dulin and Mrs. Haslam of Gig Harbor Washington when all the Heggie family gathered together in a social evening. Mrs. May Heggie also entertained in honor of Mrs. Dulin and Mrs. Haslam on Sunday.

Friends of Mrs. Martha Taylor met at the home of Mrs. Cliff Nalder Monday evening and surprised her on her birthday.

A pleasant social evening was spent and some lovely gifts presented to Mrs. Taylor, followed by a dainty lunch. Mrs. Glen Tollestrup was an out of town guest.

The Raymond Music Club met Monday night at the home of Mrs. LeVerne Anderson. Mrs. Ruth Salmon gave an article from the Etude and Mrs. Marie Matkin gave a lesson of vocal singing after which a song practice was enjoyed. The hostess, assisted by Mrs. Doris Court, served a lovely lunch at the close of the meeting.

L.L. Palmer, J.G. Snow and T. Geo Wood left by plane Thursday for Salt Lake, to attend the L.D.S. conference. Mr. Palmer and Mr. Snow returned by plane Monday.

The Athenaeum held their meeting Monday at the Library. The lesson, on "Some of Canada's Industries," was given by the following members: Geneva Larsen, Irene Halladay, Opal Widgill and Delia Woolf.

Mr and Mrs R.V. Tollestrup accompanied by Mr and Mrs Joe Kirkham and Mrs Lloyd Duhl, spent a few days in Great Falls this week.

Born to Mr and Mrs C.A. Phipps, (nee Wyona Hawkins), of Stanfield, Oregon, a son.

Mr and Mrs Wm Clemis and Mr and Mrs R.J. Fancett of Lethbridge were in Raymond Saturday for the funeral of Mrs J.D. Hall.

Mr and Mrs Glen Tollestrup and Mrs Walt Webster of Lethbridge, were Raymond visitors Monday.

Mr and Mrs Bruce Galbraith of Lucky Strike were Raymond visitors the first part of the week.

Mrs Harold Eveson and small son Larry are visiting here.

Mrs Bryan Meldrum of Magrath is visiting in Raymond, for a few days.

"Have a care Jack Dalton! Unhand that package of crisp, crunchy, delicious Grape-Nuts Flakes!"

"Curses! Follies again! Every time I try to make off with some malty-rich, honey-golden Post's Grape-Nuts Flakes I'm stopped by this guy Curly Crisp!"

"And why not? That's a neat package you've got there. Those Grape-Nuts Flakes supply carbohydrates for energy; proteins for muscle; phosphorus for teeth and bones; iron for the blood; other food essentials."

"But these are no ordinary flakes! They're made of two grains—wheat and malted barley. And skillfully blended, baked and toasted for crispness, tempting taste and easy digestion."

"Hand over that giant economy package, villain. I'm a bit wolfish myself, when it comes to Grape-Nuts Flakes!"

SEIZED DRUGS

BRISBANE, Australia.—Since the start of the year, Queensland State customs officers have seized enough drugs, they estimate, to put to sleep the 350,000 population of this state capital city. They have found narcotic drugs hidden in cameras, in tankers' oil wells, in logs, clothing, personal effects and even in false teeth.

Wheat is a more popular food than rice in north China.

"I Know Just How You Feel"

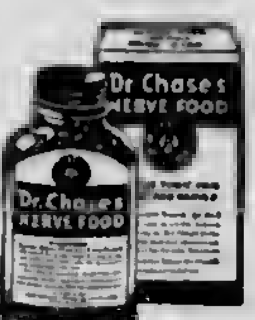

"I know because I have been that way myself. I have been so chronically tired that I thought I would never feel well again. However, I found that Dr. Chase's Nerve Food soon gave me new pep and energy and put me on my feet."

Tired feelings, indigestion and loss of sleep are quickly relieved by Dr. Chase's Nerve Food.

Answer To Last Week's Puzzle

WORLD HAPPENINGS BRIEFLY TOLD

German prisoners helped dig out a 2,400-pound German bomb dropped at Southampton, Eng., in 1942.

The U.S. National Foundation for Infantile Paralysis announced that the 1946 March of Dimes realized \$15,982,150.

Sheep-breeding is declining in Lincolnshire, Eng., because it is hard to find shepherds willing to work during week-ends.

Cost of demolishing air raid shelters erected in Sydney, Australia, early in the war will be about \$1,600,000, Sydney aldermen have been told.

Drought and other unfavorable causes have forced the President of the Supreme Soviet to postpone the end of bread rationing in Russia until next year.

An award was made to Ronald Carrol, 22, of Liverpool, England, who dived 60 feet from a port-hole in the liner Queen Elizabeth to rescue a drowning man.

Toronto war veterans came home well armed from their overseas tour. Police have registered about 6,500 firearms brought back by city soldiers, officials said.

M. Ernest Bore, 66, who drove the first Canadian-made automobile, died at his home in Toronto. He also was believed to be the first motorist to drive from Toronto to Ottawa.

Neglecting to heed the injunction to "Stop, look, listen" at highway-railroad crossings killed 121 persons and injured 470 in 1945, the Dominion bureau of statistics reported.

Will Be Expensive

Rocket Research Stations To Be Built In Britain Costing \$80,000,000

Britain will spend £20,000,000 (\$80,000,000) to build rocket research stations during the next three years, the Daily Express stated.

The report added that annual running costs of the stations were estimated at £10,000,000.

Main objects of research would be guided anti-aircraft missiles, and "long-range defensive rockets", the Express declared.

Considerable sums also were earmarked for development of trans-Atlantic passenger rockets, while possibility of developing inter-planetary space ships would be investigated.

Volcanic dust is used for insulation.

KHYBER PASS

The Northern Gate To India, Ever Under Guard

PESHAWAR, India. — In war or peace, conditions remain unchanged in Khyber Pass: the northern gate to India swings on reluctant hinges and the men who guard it are at perpetual alert.

Its ragged black cliffs have known invading armies since Macedonians, Mongolians, Persians and many others passed this way with violence.

Modern British guardians take no chances. The countryside from the Afghan frontier to Peshawar—and on beyond—is a military concentration, its strength in man and materials a secret.

Inside the pass, mountain sides bristle with hidden gun positions, lofty block houses, high-walled forts, barbed wire entanglements and concrete tank traps. The scant flow of traffic to and from Afghanistan is constantly in view of trained observers seated in winding underground installations.

The constant vigilance and rigid security, the British Indian army explains, are directed at unruly mountain tribesmen.

But it is no secret that the vast network of frontier fortifications is a bulwark against the possibility of foreign invasion.

"There's really no trouble at present," said a British officer. "It's usually quiet. But this has been a blood land for 2,000 years. We don't dare relax even in times of peace."

No Relief In Sight

Astronomer Says Sun Spots Will Continue Far At Least Another Year

Spots on the sun, some of them as big as the earth, will continue to disrupt radio, wireless and telegraph facilities for at least another year, Dr. John Q. Stewart, Princeton university astronomer, said.

And even then the world will get only a comparatively brief respite from this solar phenomena. That's the way it goes with these pesky sun spots, Stewart explained. One cycle is no more completed than another one starts. It usually takes about 11 years for the maximum to be reached.

Astronomers don't know too much about the sun spots, but they believe they are huge hurricane winds and storms sweeping over the visible surface of the sun.

Stewart said that the spots probably are the cause of "electrified corpuscles" some of which penetrate the earth's atmosphere, playing havoc with the orderly state of electronic affairs.

It is theoretically possible that the sun could be turned into one big spot. In such a case, the sun would have a red glare, rather than its yellow color.

Such a phenomena also might cause Arctic conditions on the earth. That would be bad, scientists agree.

ALWAYS GOOD SPORT

Winston Churchill has always manifested a bland disregard for railway schedules and his habit of catching a train by the skin of his teeth has always been an anxiety to his travelling companions. A friend once chided the statesman for his little weakness. "Winston is such a sportsman," explained Mrs. Churchill, "he always gives the train a chance to get away."

CAMPUS CAPERS

by Marie Dahl

On the morning of Monday, Sept. 30th, it was noticed that, somehow or other, the school seemed different. The halls were unusually empty and quiet and it was noticed that you could walk slowly down the hall, without having your life endangered by some enthusiastic young scholar as he dashed to his next class. It was the beginning of the beet harvest, and also the beginning of a long strange month at school. The teachers feel that it is a waste of time to teach each lesson to such a few. It is too bad that all the students cannot go out to work and close the school down till the last beet is thrown over the side of the truck. Now, nearly two thirds of the students miss one month of the full

course.

But Tuesday night it began to rain and continued to do so in a vigorous fashion all next day. This brought all our students flocking back to school. They were a comical sight to behold that morning, resembling drowned rats, as they came inside, shaking water from their clothes and stamping mud from their shoes. Water ran helter skelter down their faces, legs were muddy and clothes were wet; only during "Sadie Hawkins" Week can be witnessed more heads of straight hair than we saw, last week. We were glad, though, to see the students back, even if it was only for a few days.

At the beginning of each new school year, an election is held to select the officers for the first term. This is an event the students look forward to, as it promises great fun and excitement. A president, vice-president and secretary are chosen to run our school. It takes about a week to complete an election and we are now waiting for the best topping majority to return.

There are three ball teams being organized at school: the "A" team, the "B" team and the girls team. Mr. Jacobs is our coach for the A team and has been for a number of years. We appreciate the time and effort he puts forth to give us a good team and we are sure that our team this year will be better and more capable than ever before, under his direction.

Mr. Miller, last year's coach of the B team, has kindly consented to coach them again, although he is not on the school staff and is very busy. We are expecting our B team to make a name for itself this year.

Ira Bourne has agreed to take over the training of the girls team, and we are certain that, with his experience, he can make our team a good one.

The ball games make up a great deal of our High School's entertainment, fun and school spirit. Everyone loves ball games and all enthusiastically support the teams. The contest for the Tanner Trophy during Christmas week is a challenge and a goal for our A team. We wish them the best of luck this year and depend on them to make a good, a VERY good showing.

It's the moral weaklings who have come the political quibblings.

Anyone who is proud is lonely.

We don't have to be good at everything, but everything we do should be good.

The surest way to curb the black market is to inaugurate a buyers strike.

NATIVE RANGE PLANTS

A great variety of plants make up the cover on our native range lands but only relatively few species are important over a large area. The great majority of the grass species, although found scattered in varying amounts in the prairie, are of secondary importance to a group of 5 or 6 main grasses and a few browse plants.

Our most important range grasses in the drier parts of the prairies are Bluestem, Blue grama grass, June grass and one or two blue grasses. Bluestem, often called blue joint, is a member of the wheat grass family and is similar to crested wheatgrass in some respects. It grows on a wide range of soil conditions but best on heavy soils, particularly low lying areas. It is a medium to high growing grass that produces a high yield of excellent winter forage or good quality hay. It gets the name blue stem from the bluish bloom covering the plant.

Speargrass is an excellent pasture grass in the early part of the season before the awns develop and again in the fall after the seeds drop. It is an upland grass, very drought resistant and capable of making rapid recovery following a severe drought.

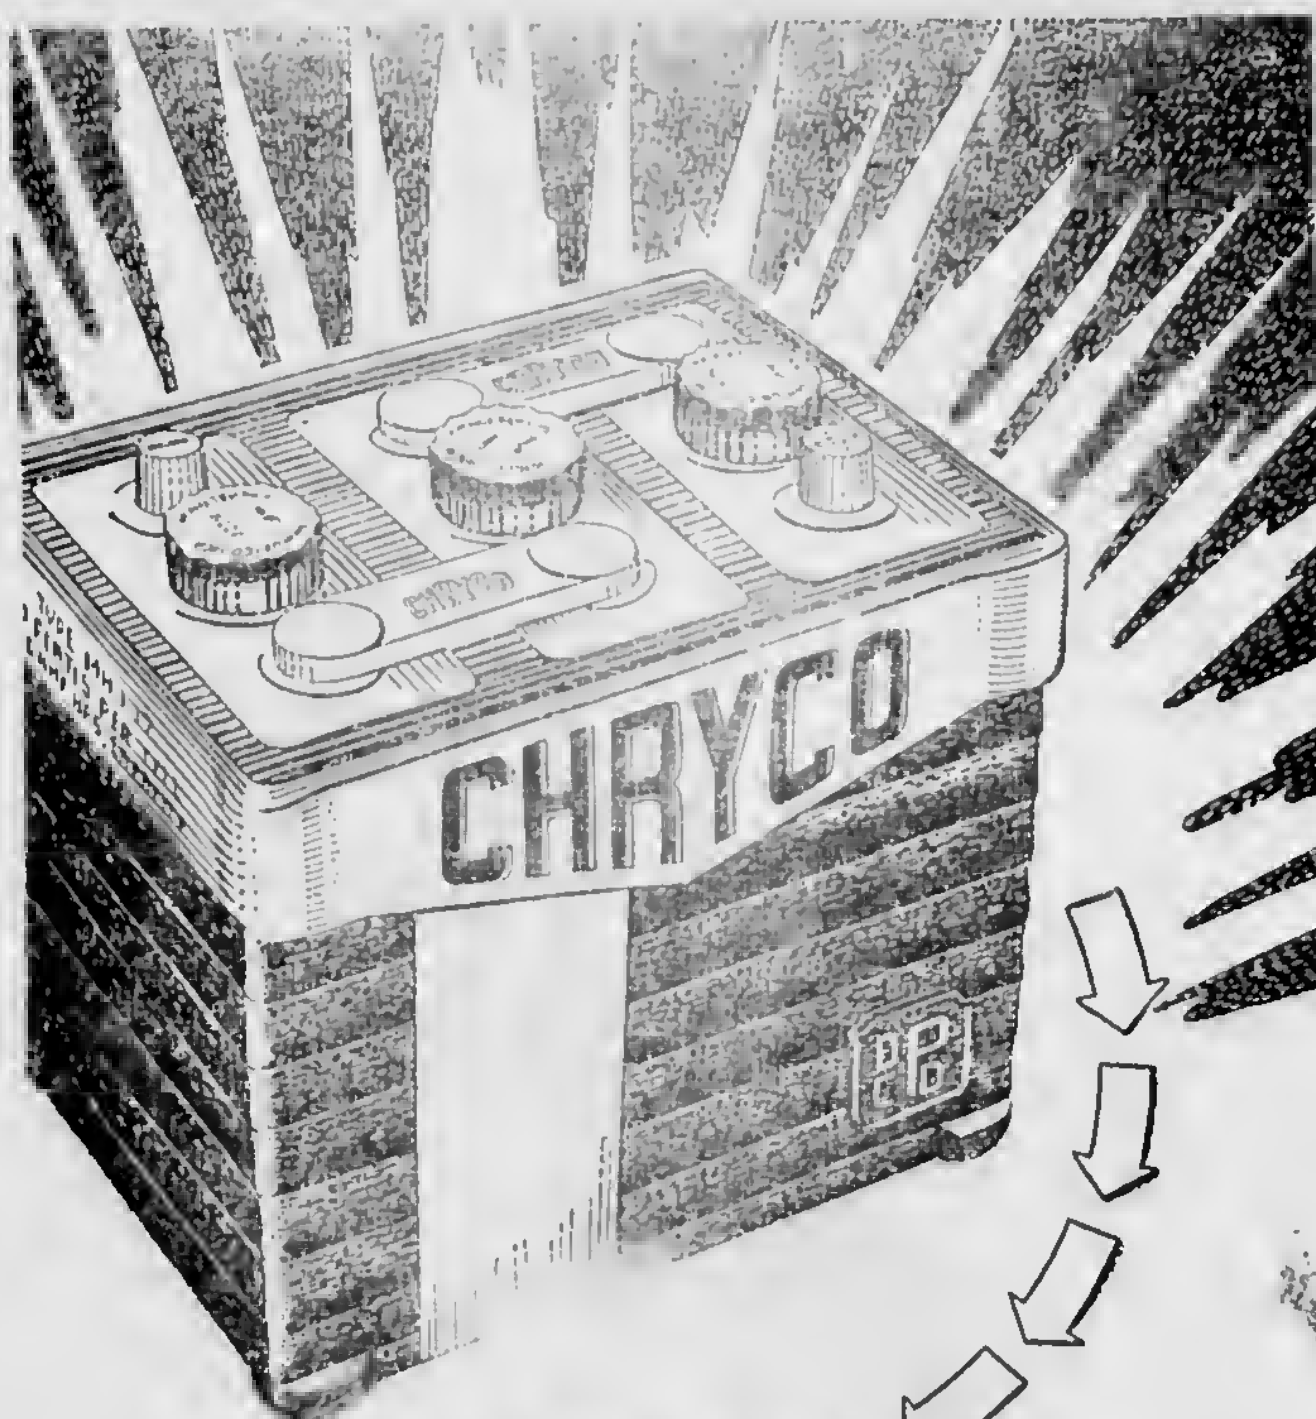

Blue grama grass, June grass and the blue grasses are all drought resistant short growing grasses that make up varying amounts of our native forage. They are all highly nutritious, are very palatable, but relatively low in productivity.

The non-grass-like plants of the ranges are generally termed forbs. Of the many forbs found one or two are particularly valuable. Winterfat or white sage, is a drought resistant plant that is very high in protein. It makes excellent winter feed and is relished by all classes of stock. This plant has been greatly reduced by overgrazing but is gradually recovering in protected areas. Another valuable plant is salt sage that grows abundantly in alkali conditions and also on upland areas. Although not as palatable or nutritious as winterfat it plays an important part on our range.

The species discussed briefly in this paper are the main stay of our range forage. When they are present in large amounts good carrying capacity is ensured. Careful management of ranges to maintain these species in plentiful supply is basic to successful range live stock production.

THE PICK OF PIPE TOBACCOS

Immigration Policy

THE SUBJECT OF IMMIGRATION is receiving a great deal of attention in Canada today. It came up frequently in debates during the last session of Parliament, and at that time it was announced that an inter-departmental committee was preparing a post-war immigration policy. The matter was also brought up in the Upper Chamber, when the Senate Immigration Committee brought in a report in which it was urged that a vigorous policy of selective immigration be commenced as soon as shipping space becomes available. It also stated that the subject of immigration is of the greatest importance to the people of this country "if we are to hold our place abroad and improve and maintain our standard of living at home."

Little Hope For Future

Canada has some 3,500,000 square miles of territory including large areas where there are valuable resources and rich land waiting to be developed. In view of these facts, the question has frequently been raised as to whether the present population of 12,000,000 people can expect to remain in exclusive ownership of so much land, when in other parts of the world overcrowding and many industrious, deserving persons, look to the future with little hope if they must remain in their present surroundings. Those who favor an extensive immigration program, stress that it must be on a highly selective basis and that all those admitted must be the type of people who would be an asset to the Dominion.

Changes Made In Regulations

In 1931, when there was widespread unemployment in Canada, the immigration laws were amended, and unrestricted immigration was limited mainly to British subjects, citizens of the United States, and a few others in special categories. These regulations are still in effect, although recently arrangements were made to admit relatives of Canadians from foreign countries, if the Canadian relatives can guarantee to provide for them and arrange for their accommodation. It was also decided to admit some 4,000 unmarried Polish veterans who had fought in company with the Canadian Army in Italy. These men were brought into Canada on the understanding that they would work on farms for at least two years after their arrival. There is a strong opinion among many individuals and organizations throughout the Dominion in favor of a selective policy of immigration which would build up the population, settling our unoccupied land and providing wider domestic markets for the products of our farms and factories. There will be great interest shown in whatever action is taken in regard to this matter during the coming months.

New Drug

Streptomycin Is Effective When Penicillin Does Not Respond

Certain infectious diseases respond effectively to penicillin and streptomycin treatment. Dr. J. A. Dunn, pharmacologist, Toronto, told a convention of the Manitoba Medical Association held in Winnipeg.

Streptomycin, a fairly new drug, is not yet generally available to the profession although an increase in supply was anticipated, he said. The use of the newer drug will be effective in the treatment of certain infections which will not respond to penicillin therapy.

Price Control And Rationing Information

Q.—What are the numbers in ration book five of the ration coupons which will not be declared valid?

A.—The following coupons in ration book five will not be declared valid: R22, R23, R24 and R25 which were exchanged for butter, and Q5 to Q25, which were used for the purchasing of meat.

Q.—Is the paper situation really as serious as our merchants would like us to believe?

A.—The paper bag and wrapping paper supply is very serious, and will continue to be for some time. Housewives can greatly co-operate with the merchants by always carrying a shopping bag when they go shopping. Fruits, vegetables, canned goods and packaged goods can be placed in the shopping bag without additional wrapping paper.

Q.—Several months ago, we are given priority on a new car. Now the dealer tells us that the priority certificate is of no value, and that he may sell his cars to anyone he pleases. Is this correct?

A.—Yes, your dealer is correct. Regulations governing priority certificates and the distribution of new cars were lifted as of August 15, 1946.

Q.—I have an error in my new ration book. Should I return it to the local ration board in my district?

A.—Return your book immediately to the local ration board for adjustment.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

High-Speed Building

Houses Are Constructed In Record Time Under New Method

A new system of high-speed precast building which enables houses to be complete within one week has been introduced by a Sheffield, England engineer-builder. The technique involves the use of molds of steel casting, which turn out cellular concrete sections faced with imitation brick, stone chippings or pebble like pieces of jigsaw all dovetailed to make a rapid and complete fit.

To Keep Witchcraft

Home Secretary Says This Is No Time To Repeal Act

LONDON.—Home Secretary Ede says this is no time to think about repealing the Witchcraft Act of 1735. The act might come in handy to check "unscrupulous exploitation of personal loss and bereavement," he told the Spiritualists Union, which had protested that the law hampered mediums.

Mr. Ede assured the mediums they need fear no prosecution unless there was evidence of "fraud or imposture."

IT CERTAINLY TAKES THE WORK AND WORRY OUT OF BREAD BAKING!

NEW Faster Acting ROYAL Ends Overnight Bother—Risk!

NEW Fast Rising Royal is here! The modern baking discovery that lets you do all your baking in a few hours . . . by daylight! No "settling bread" the night before—no baking disappointments because dough spoiled during the night when the kitchen temperature changed. New Fast Rising Royal is ready for action 10 minutes after it's dissolved in water!

And the rich, home-baked flavor of bread baked with New Fast Rising Royal will make your family brag about your baking more than ever. You get 4 packets in each carton of New Fast Rising Royal—4 large loaves to a packet. Stays full-strength, ready for immediate use, for weeks on your pantry shelf. At your grocer's—now!

SMILE AWHILE

Jones: "Heaven bless him! He showed confidence in me when the clouds were dark and threatening." Robinson: "In what way?" "He lent me an umbrella."

Don't worry if your job is small, And your rewards are few; Remember that the mighty oak Was once a nut like you.

"What makes you look so dirty?" asked the neighbor.

"Well," replied the little lady of five, "you gave my brother a dime yesterday to wash his face."

At a local concert for the troops an amateur soprano, "diligent," she sang or, rather, she warbled all over the notes.

At the finish there was a short silence, broken by one or two hand-claps. Then, a husky voice came from the back seats:

"Now give us the 'All Clear', missus."

Caller: "I am so sorry your mistress is out. Do you think she will be at home this evening?"

Maid: "She'll have to be; it's my night out."

Tourist—Pardon, sir, but what do you do with all that corn?

Farmer—Well, we eat what we can and what we can't we can.

Tourist—Oh, I see.

Tourist's Wife (to husband)—What did he say, dear?

Tourist—He said, they ate what they could, and what they couldn't they could.

The teacher had recited "The Landing of the Pilgrims." Then she requested each pupil to draw from his or her imagination a picture of Plymouth Rock.

Most of them went to work at once, but one little fellow hesitated and at length raised his hand.

"Well, Willie, what is it?" asked the teacher.

"Please, ma'am, do you want us to draw a hen or a rooster?"

Binks: "I'm the happiest man in the world. I have the best wife in the country."

Banks: "Well, who wouldn't be happy with his wife in the country?"

Mr. Smith: "Your wife used to be nervous now she doesn't seem to show a sign of it. What did you do for her?"

Mr. Brown: "That was easy; the doctor simply told her her nervousness was a sign of age."

Youthful Father: "Our baby is beginning to recite 'Baa, baa black sheep, have you any wool?'"

Neighbor: "And he's only eight months old?"

Father: "Well, he doesn't say all of it yet, but he's got as far as the 'Baa, baa'."

LESS EXPENSIVE

The ancients blamed the planets for their troubles. That was less expensive than maintaining a government to blame things on, says the Brandon Sun.

Gazelle Boys

Who Run Fifty Miles An Hour, Now Number Up To Five

JERUSALEM.—Gazelle boys—they eat grass, run 50 miles an hour and speak only the language of their foster parents—are enlivening this year's silly season in the Near East.

First reported in Trans-Jordan some weeks ago, the gazelle boys now number five. Each story is a little better than the last one.

The original report was that three hunters seeking the gazelle—an antelope with large, friendly eyes—had found a 14-year-old boy living with a herd. They gave chase in a car going 50 miles an hour, captured the boy and took him to a hospital where he would eat nothing but grass and mumbled, inarticulately. The story was told in Palestine and Trans-Jordan bars and found its way into print.

Later it was learned the boy was the son of a Bedouin family living in the neighborhood, and was mentally deficient. He is now in a hospital. He doesn't eat grass.

The other Gazelle boys subsequently turned up in Trans-Jordan, Iraq, Syria and Lebanon. One, the wags say, is being trained by oil companies to do a 50-mile-an-hour pipeline patrol. Another, according to the latest story, is being taught English by professors at the American University at Beyrouth, so they can learn what the Gazelles talk about besides love.

Uniform Trouble

Vancouver New Police Are Forced To Wear Plain Clothes

VANCOUVER.—The clothing shortage is interfering even with the city police department.

Board of Police Commissioners has learned that it takes "three, four or five months" to get new police uniforms.

"We have our new men going around in plain clothes, and we can't use them properly that way," said Police Chief Alex McNeill.

GEMS OF THOUGHT

DEEDS

Not by birth does one become an outcast.

Not by birth does one become a noble.

Through deeds it is that one becomes an outcast.

Through deeds it is that one becomes a noble.—Sutta.

Goodness and philanthropy begin with work and never stop working. All that is worth reckoning is what we do, and the best of everything is not too good, but is economy and riches.—Mary Baker Eddy.

Let us decide honestly what we can do, and then do it with all our might.—Amelia D. Barr.

It is the little things well done that go to make up a successful and truly good life.—Theodore Roosevelt.

Every man feels instinctively that all the beautiful sentiments in the world weigh less than a single lovely action.—James Russell Lowell.

I must do something to keep my thoughts fresh and growing.—James A. Garfield.

Used to Wake Up with a Headache

Now Fresh and Lively Every Morning

Here is a man who woke up most mornings with a dull headache. What a dismal way to start the day! But Kruschen transformed his life, according to his letter:—

"I used to wake up in the mornings with a dull headache. A year ago, I started taking Kruschen Salts regularly. Today, I wake up fresh and lively and can do my day's work without undue exertion. I find Kruschen Salts a great help, and have not been so healthy for a long time. I can recommend Kruschen for anyone suffering from headaches and constipation. I'll never be without Kruschen as long as I live!—E.P.

Dull headaches such as this man suffered from can often be traced to a disordered stomach and to constipation because of waste material which remains in the system. A small dose of Kruschen taken regularly in the morning promptly helps to remedy this condition. And that is how Kruschen acts to relieve such headaches.

Try Kruschen for relief of morning headaches and sluggish feelings. 25c and 75c at all drug stores.

Bagpipes Popular

Scottish Tourist Committee Believe They Are Attraction To Tourists

EDINBURGH.—The music of the bagpipes was advocated as an added attraction for visitors to the land of the heather and the mist.

Tourist-seeking Scots said, however, that salmon, venison and trout might prove more palatable to the alien than the native haggis—a sort of pudding of offal, oatmeal and spices.

The importance of the bagpipes to the tourist trade was emphasized in a report by the tourist committee of the Scottish Council on Industry published recently which added that Scottish music and displays of Highland dancing would prove "a very popular form of entertainment."

The Prince Albert coat was named not for the consort of Queen Victoria but for the oldest son, later King Edward the VII.

An ordinary sneeze travels two or three feet.

THE CAR SENSATION OF THE AGE...

the **Jeep**
READY TO DRIVE AWAY

- Buy It Today!
- Drive It Away!
- Put It to Work at Once!

The Jeep-of-all-Jobs Masters them all!

Here are a Few of the Many Uses for a JEEP

It's a TRUCK!

The Universal "Jeep" carries a load of 800 lbs. or tows a 5,500 lb. trailer payload. With 4-wheel drive, the "Jeep" goes places ordinary trucks cannot go.

It's a TRACTOR!

The "Jeep" with four wheels pulling, works speedily and efficiently as a tractor... operating plows, harrows, seeders, manure spreaders, ensilage harvesters, etc.

It's a MOBILE POWER UNIT!

Through an ingenious rear-end power take-off, the "Jeep" delivers up to 30 h.p. for operation of power devices... takes the power where you want it.

It's a RUNABOUT!

The "Jeep" is handy for trips to town... road speeds up to 60. You can depend on your "Jeep" through mud, snow and sand... it goes where ordinary cars cannot.

It's the UNIVERSAL "JEEP"!

Its amazing versatility makes the "Jeep" the slickest trick on wheels!

When you need a handy pick-up or delivery truck... load up your "Jeep", or hook on a trailer! When there's plowing or discing or harrowing to be done... "harness" up your "Jeep"! When you need mobile power to sow wood, pump water, spray trees or operate any power device... hook up the power take-off on your "Jeep". When you want a runabout... hop into your "Jeep"!

Come in and see for yourself how this one vehicle will fill a multitude of your needs... and spread its cost over year-round everyday use. Choose from three colours—orange, yellow or green.

See... Drive...

The Mighty **Jeep**

Lions Put Over \$500. In Hospital

Highlight of the regular Monday evening meeting of the local Lion's Club, held at the Sugar Bowl, was an informal debate on the Farmers strike. Lion Rulon Dahl took the affirmative, giving a splendid argument in favor of strike action, with Lion Melvin King giving just as convincing an argument against strike action on the part of the farmer. The debate was very informative and very well given.

A report by Lion Leon Harker, president of the Club, disclosed that the project of beautifying the hospital grounds was almost completed. The lawn was recently planted and is coming up and looks as if it will get a good start this fall. A total of \$511.91 was put into the project by the club, and 420 man hours of labor supplied by the individual members. Two guests were present: Mr Scott manager of the Treasury Branch here and Mr Sturm of the Pincher Creek Lions Club.

R.A.F. RADIO and RADAR to AID CIVIL AVIATION

The R.A.F. Radio and radar aids to navigation were demonstrated to the delegates at the conference on International Aviation held in London recently. The equipment which played

a very important part in the victory in the air was demonstrated and discussed for the benefit of Civil Aviation all over the world. Picture shows:—A demonstration of Radar Control which will bring in and land a plane with "nil" visibility.

The Best One We've Heard This Week

The best story we have heard this goes as follows: It seems Jim Meeks called the Utah Cafe one morning and this is the message:

Jim: "Is Rex there please?"
Voice: "No, he's not."
Jim: "Well, I'll speak to Teddy."
Voice: "Teddy's not here either."
Jim: "Glen will do."
Voice: "Sorry, no Glen."
Jim: "Well call Billy then."
Voice: "Wrong again, no Billy."
Jim: "Say, what number have I got?"
Voice: "This is the Utah Cafe."
Jim: "Oh no! That can't be the Utah or ONE of the Meeks boys would be there."

When you don't feel particularly fond of your wife, see where you have been too fond of yourself.

Those who have decided to give everything need never fear the loss of anything.

When men are governed by sound motives they will set up sound governments.

TOURISTS PUT CASH IN FARMER POCKETS

While tourist accommodation in many of the national parks was taxed to capacity this season, it is generally recognized that capacity should be greater. This was stated by J.C. Stead, of Ottawa, director of publicity for the federal parks department, in a recent address to members of the Edmonton branch of the Alberta Motor Association.

Mr. Stead expressed the view that the top priority in this country was educating the people as to the value of tourist trade. He moved that purchases of gasoline and other articles by these visitors help to reduce taxation.

Speaking of tourist trade he said the farmers should be fully informed of the situation. If it were made clear to them that tourist trade will help to ease taxation, the attitude of many concerning the value of this industry might change as they would see it meant a great deal to this country. In addition to purchasing farmer's products, there were many indirect benefits from tourist trade.

Others who are interested in their children's health and development will ensure that pre-schoolers and teen-agers alike receive the healthful foods their young bodies need. The Department of National Health and Welfare points out that at no time of life is a sound living system more essential than in the early formative years, and that, from babyhood to manhood, the best is none too good for the growing individual, as far as food is concerned.

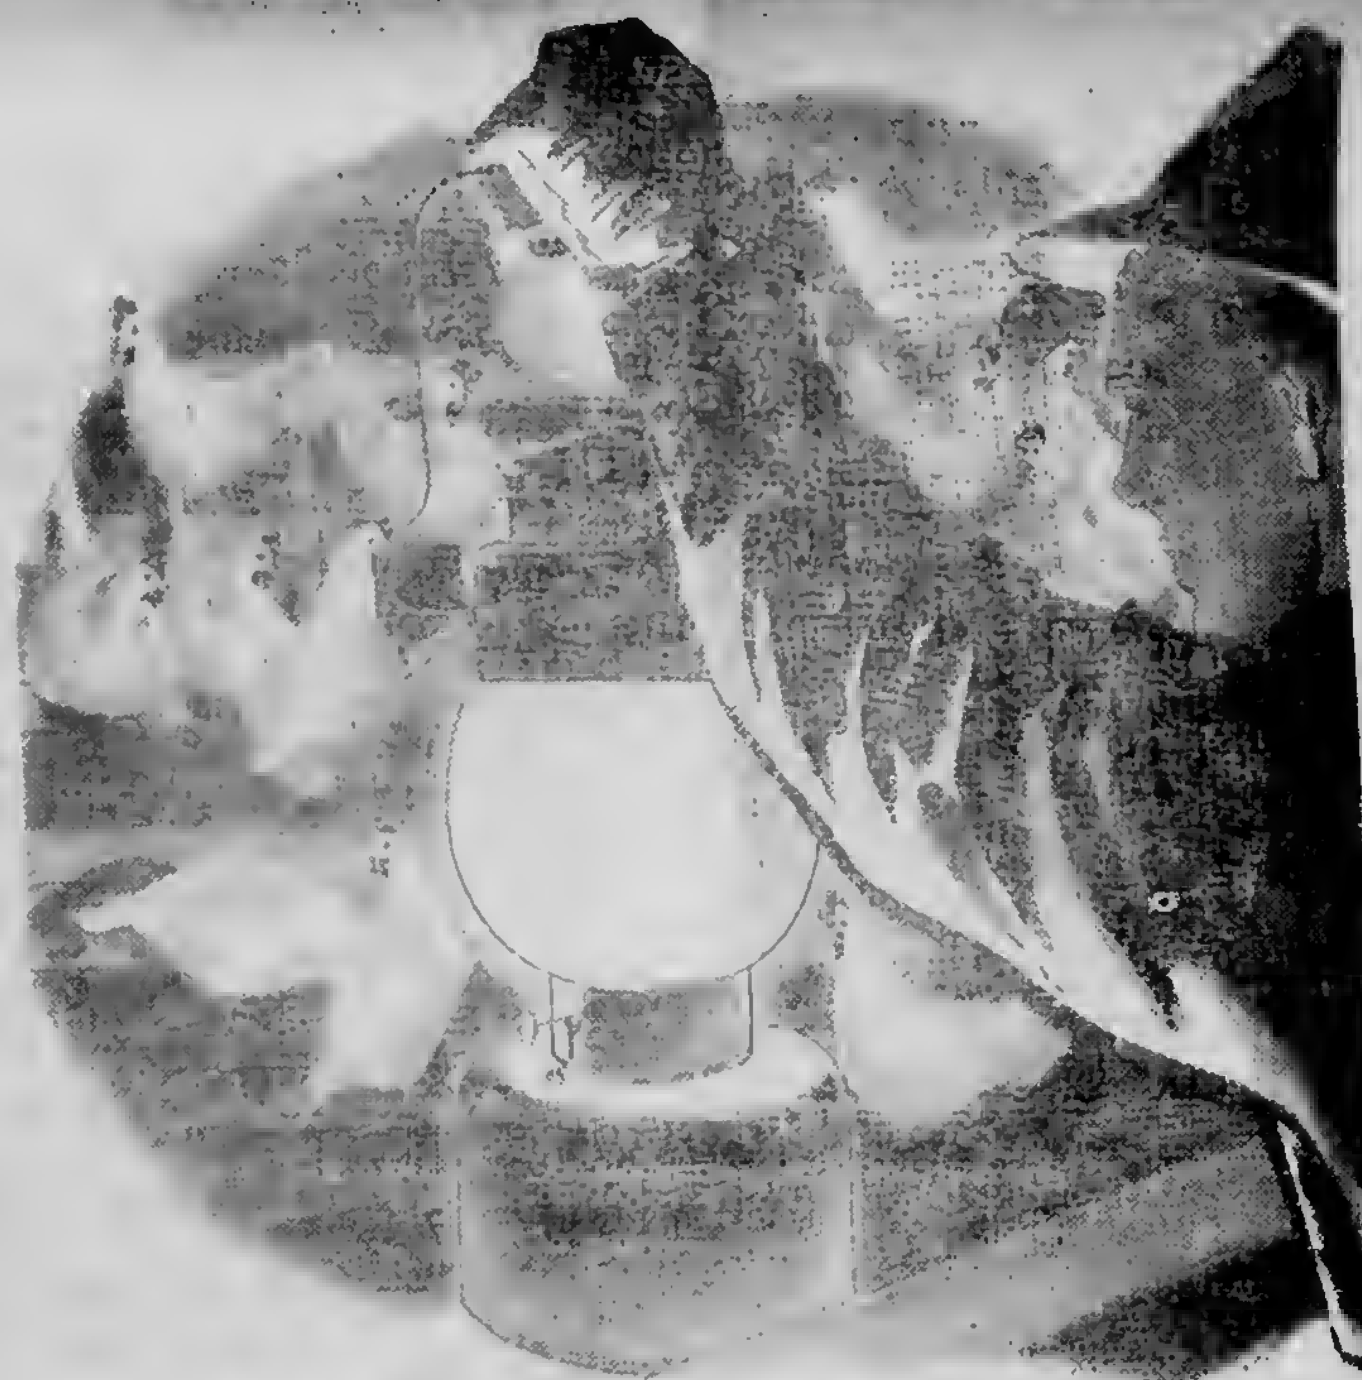

TANNIS MURRAY of C.R.C.'s talks and public affairs department is among four Canadians invited to attend the International Assembly of women meeting in South Kortright, N.Y. October 12 to 22, under the sponsorship of Mrs. Franklin D. Roosevelt. Before leaving for New York Mrs. Murray will launch the fourth annual series of Citizen's Forum Broadcasts of which she is director.

Importance of green, leafy vegetables as foods is stressed by the Department of National Health and Welfare. The Nutrition Division of the Department points out that they contain useable food iron, which feeds the blood cells, and Vitamin A which promotes the health of living cells, forming the fabric of the skin. Importance of greens has been recognized by man from earliest times.

IMPERIAL NAPHTHA

the clean trouble-free fuel!

For Gasoline Lamps, Lamps, Irons and Stoves

The following letter from the Head Office of the Coleman Lamp and Stove Co. Limited speaks for itself:

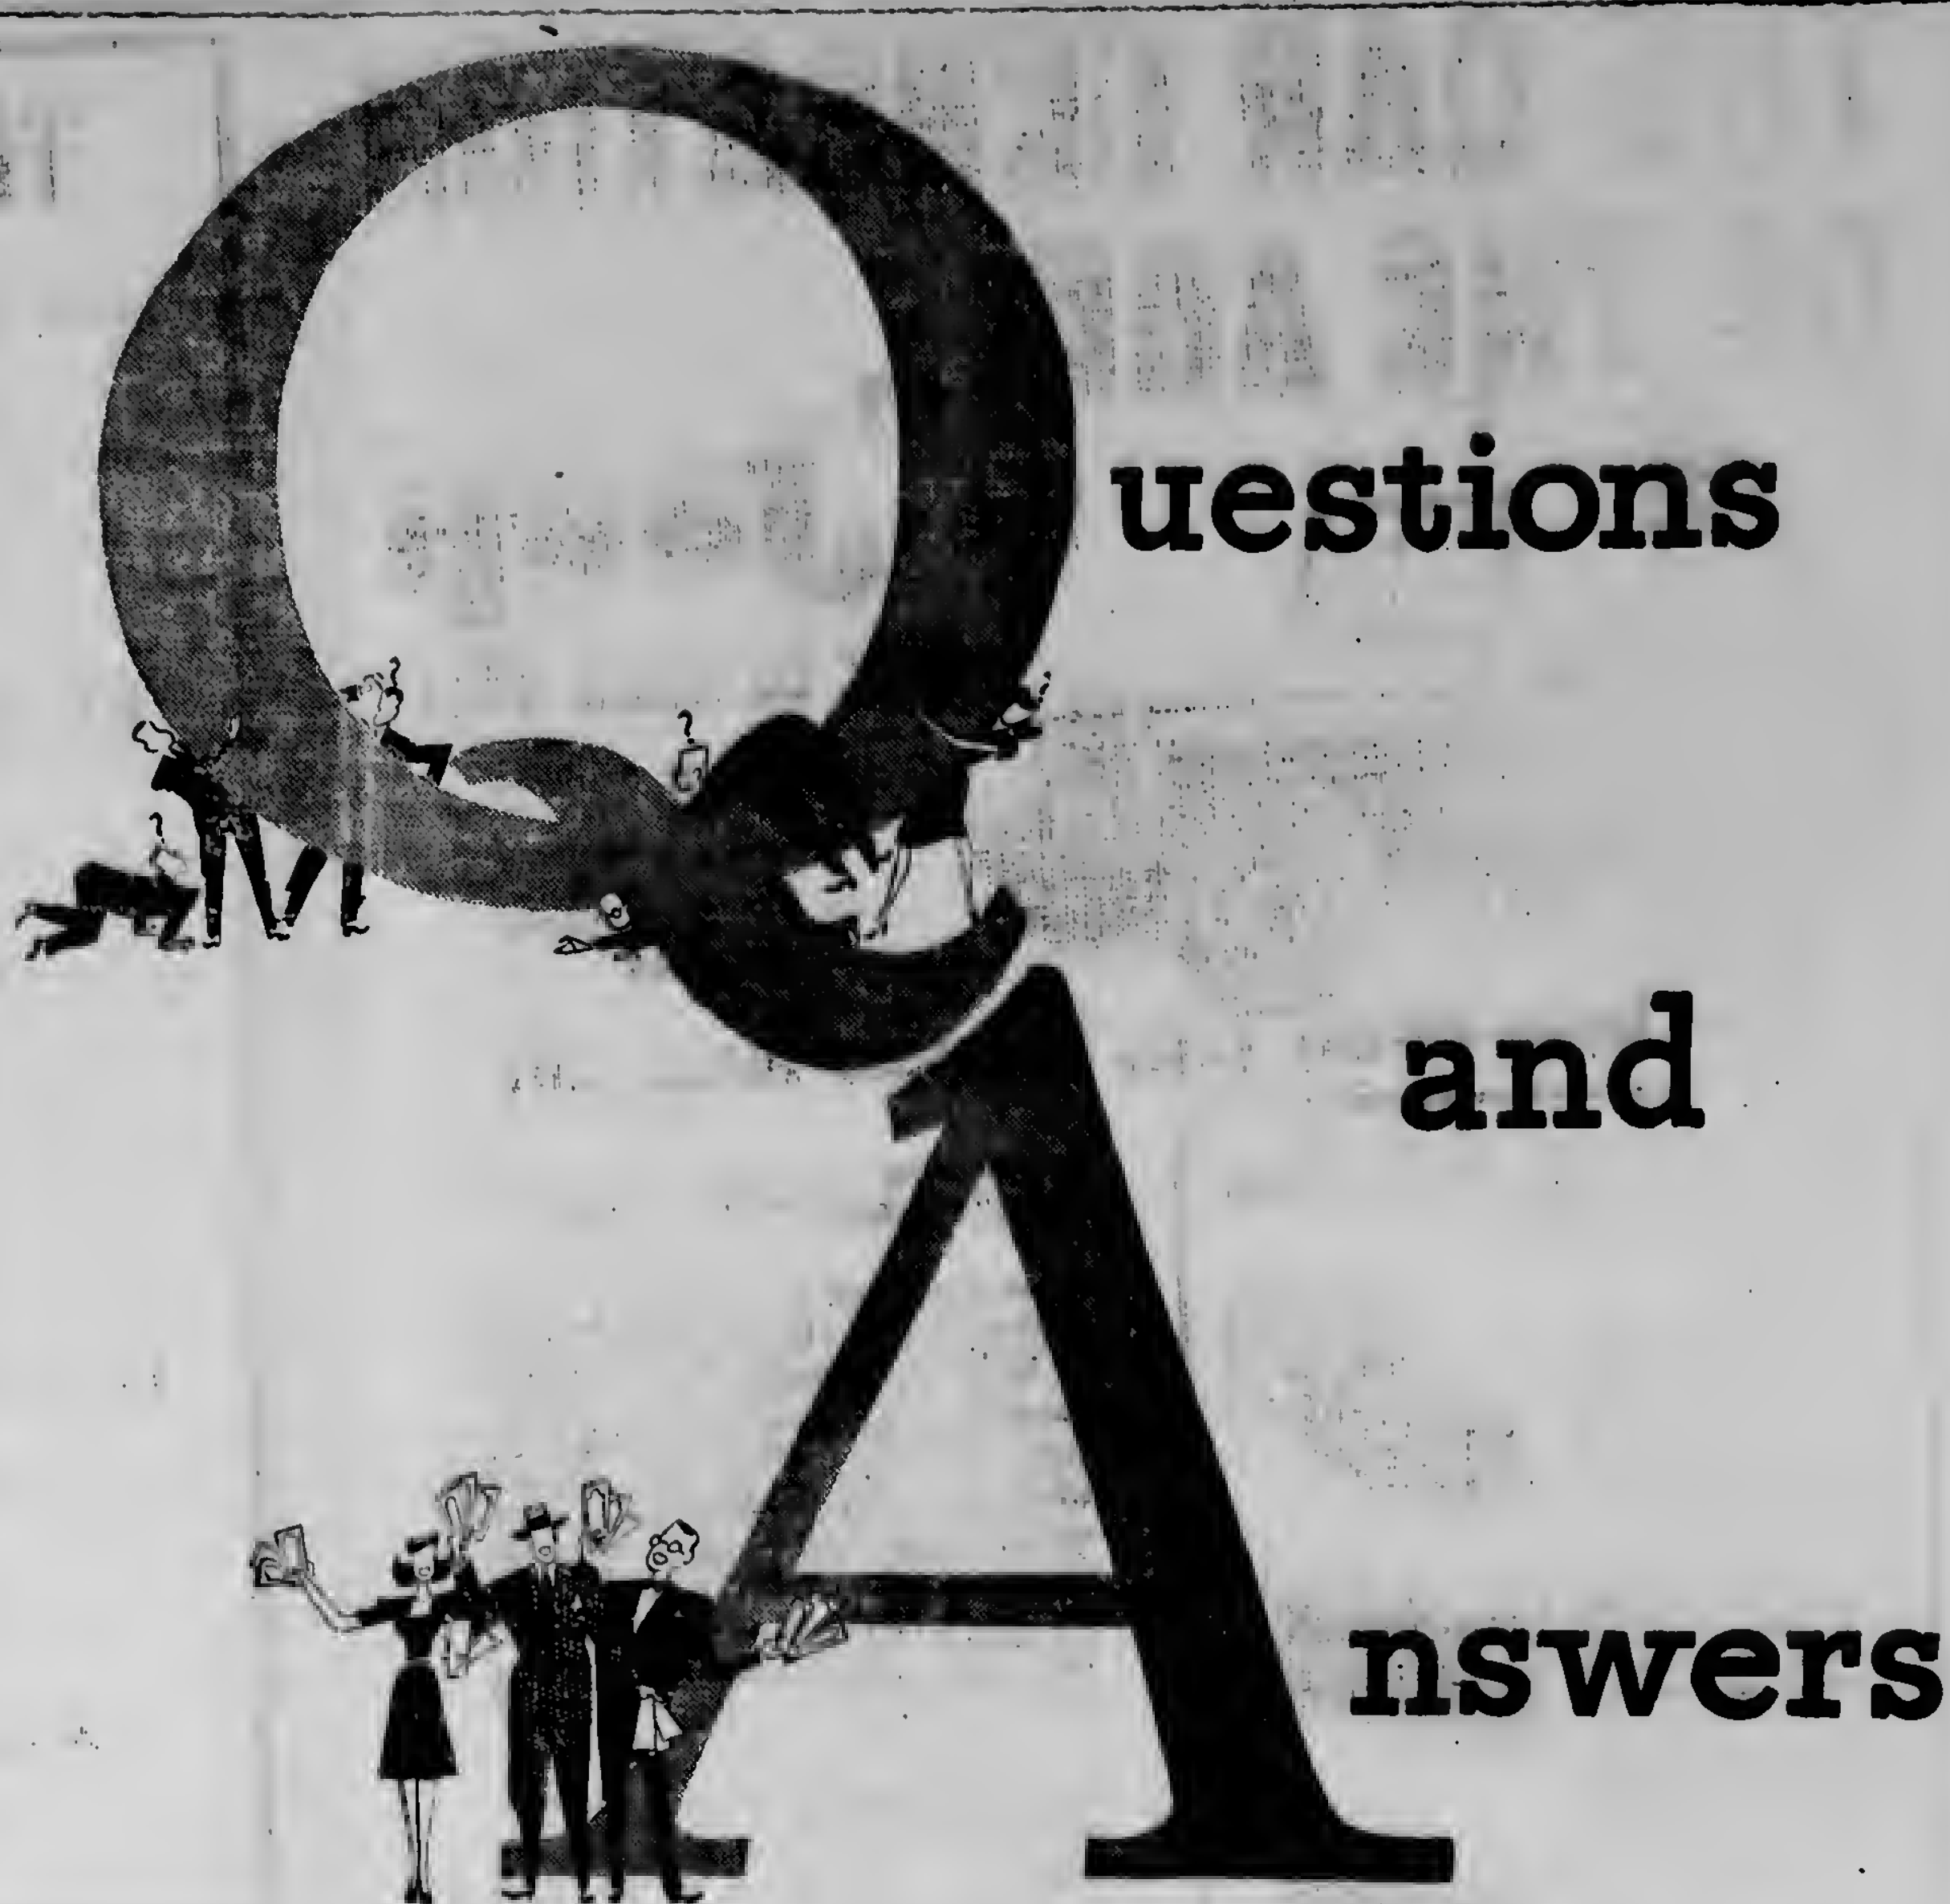

"During the past several years it has been our policy from time to time to have our laboratory make a series of tests on Imperial Naptha. After careful analysis each time we have found that Imperial Naptha has all the qualities so essential in a fuel that is to be used in gasoline lamps, lanterns, irons, stoves, blow torches, and similar products. We highly recommend it for use in Coleman gasoline appliances. In our correspondence with dealers and customers we invariably mention Imperial Naptha by name."

For greatest satisfaction always use Imperial Naptha

IMPERIAL OIL LIMITED

Everywhere in Canada

GENERAL

Q What are Canada Savings Bonds?

A Canada Savings Bonds are the successor to Victory Bonds and War Savings Certificates. They are your country's promise to return your money to you at any time and to pay you interest at an attractive rate.

Q Why are Canada Savings Bonds being offered?

A Because during the war, millions of Canadians learned the savings habit by buying Victory Bonds and War Savings Certificates. A recent survey shows that 82% of them want to keep on saving by a similar plan.

Q Is the Government selling Canada Savings Bonds just to raise money?

A No. Borrowing needs of the Government can be met by other types of loans. The main purpose of the Canada Savings Bond is to provide Canadians with a convenient way to continue this kind of saving and investment in peacetime.

Q Is there any limit to the amount of Canada Savings Bonds that one person may hold? If so, why?

A Yes. There is a limit of \$2,000 for each individual, but each member of a family may hold bonds up to the limit.

Q What is the price of Canada Savings Bonds?

A 100%. That is, a \$100 bond costs \$100. If payment is not completed on or before November 15th, 1946, interest will be added to the purchase price.

Q In what denominations are Canada Savings Bonds available?

A \$50, \$100, \$500 and \$1,000.

CASHING OF BONDS

Q Can I cash my bond at any time before November 1, 1946?

A Yes, any branch in Canada of any chartered bank will cash your bond immediately at full face value, plus interest at 2 1/2%, upon your identification as the registered holder.

Q Can Canada Savings Bonds be assigned or transferred?

A They can be cashed, but not assigned or transferred. This is necessary to prevent any individual from acquiring more than the authorized limit.

INTEREST COUPONS

Q What interest is paid on Canada Savings Bonds?

A 2 1/2%—payable yearly on November 1st from 1947 to 1956, by coupon cashable without charge at any branch in Canada of any bank.

Q Are interest coupons registered?

A No. They are payable to bearer.

REGISTRATION PROTECTION

Q Why is it necessary to register Canada Savings Bonds?

A Registration gives protection in case your bond is lost, stolen or destroyed. It is also the simplest way to ensure that individuals do not hold more than the \$2,000 limit.

Q In whose name can Canada Savings Bonds be registered?

A They can be registered only in the name of one individual, adult or minor, up to the amount of the authorized limit.

Q Can Canada Savings Bonds registered in the name of a child be cashed?

A Yes. Banks are familiar with the necessary regulations.

Q Can Canada Savings Bonds be disposed of when registered in the name of a deceased person?

A Yes, any bank will supply the necessary information.

Q Can I replace my Canada Savings Bonds, if they are lost, stolen or destroyed?

A Yes. It is wise, however, to keep Canada Savings Bonds in a safe place, as you would any other valuable documents. In case of loss you should immediately notify the Bank of Canada, Ottawa, of the circumstances.

HOW, WHEN AND WHERE TO BUY

Q Where can I buy Canada Savings Bonds?

A At any branch of a bank or from an authorized investment dealer, stock broker, trust or loan company—or through the payroll savings plan if this is in operation at your place of employment.

Q How do I pay for Canada Savings Bonds?

A In any of the following 3 ways:

1. By payment in full at time of purchase.
2. By monthly instalments through a bank, trust or loan company.
3. By regular deductions from pay, where employers operate the Payroll Savings Plan.

A.M.A. MAKES APPEAL FOR SAFE DRIVING

With shorter periods of daylight approaching with the nearness of winter, an appeal for safe driving has been made by officials of the Alberta Motor Association.

Motorists are urged to make a special effort to avoid accidents and cut down the toll this season. At the same time it is the duty of pedestrians and others on the highways to take all necessary precautions to avert accidents.

Six out of every ten traffic accidents occur after dark, it has been revealed in a recent traffic survey. This again demonstrates the fact that many of the driving hazards lurk in the night hours, when extra driving care should be exercised.

Frosty nights will give glassy road surfaces, causing skidding which often is a forerunner to a bad accident.

Motorists should have their cars checked over at this time to make certain that brakes, lights and other equipment is in proper order.

New Building Nearly Complete

The new building on the corner of First street north and Broadway, which will house the Graham Motor and Machine Company is nearing completion.

A fine job of remodeling has been done on the building which was formerly the O'Brien block & the building has been extended both east and north.

The building is very roomy and will have a large show room in the front and will be equipped with the very latest in machinery. A full stock of automotive parts will be on hand at all times and a number of the more popular lines of household appliances will be handled. Hudson cars and trucks, Jeeps, new and used machinery and many other lines.

Clean and modern in appearance the building is a fine addition to the business blocks in the town.

LOW RAILWAY FARES FOR THANKSGIVING DAY

Special reduced railway fares for the Thanksgiving Day week-end has been announced by F.H. Ball, Canadian Pacific Agent, Raymond, Alta. The low fares will be available from Noon on Friday, October 11th, to 2 P.M. Monday October 14th and will be good to return leaving destination up to midnight of Tuesday, October 15th.

On branch lines where there is no train service on October 11th after 12 noon, tickets will be sold for morning trains on that date.

The low rate of single fare and one quarter for the round trip will be good between all stations in Canada and in all classes of accommodation.

Wreck Dispersal

The United Kingdom Royal Navy is in the midst of one of its most ambitious tasks, that of clearing the seas around Britain's coast of the numerous ships sunk there during

the war. Though the Nazis failed in their attempt to stifle the shipping of supplies to and from the British Isles, they sent wreckage to the bottom of the sea which still endangers vessels plying these waters.

Some of the hulks have been salvaged for the metal they contain. Others have been refloated, towed in, and made fit to sail again. Most of this salvage work has been completed.

The longest job remains, destroying those wrecks that cannot be extracted or are not worth salvaging. These must be disintegrated by high explosives, a dangerous task for men of the Admiralty's Wreck Dispersal Department. Divers descend to the hulks to pack them with T.N.T., the explosion is set off, and the skeleton is finally laid, its danger to commerce over. A surveying vessel next examines the sea bed to report on the success of the destruction, and the news is passed on to mariners all over the world.

Sweet and cool in any Pipe

Youth Of Europe

Although Spirit Appears Broken Hope Is Seen For Their Salvation

Although the youth of central Europe appear broken in spirit, hope for them lies in such a rallying point as Dr. Hans Lilje, assistant bishop of Hanover, one of the most heavily bombed cities of Germany, the Rev. Wilson E. Bergstrand, youth director of the Lutheran Augustana synod, said.

Mr. Bergstrand, who recently represented the American Lutheran Youth at a world council of churches in Geneva, Switzerland, said a youth religious meeting in Hanover, directed by Dr. Lilje this summer was attended by 20,000 young men and women. Before the war attendance at such meetings was about 3,000.

"Some representatives at the world council of churches were, however, not too encouraged about the prospects of reviving religion among the young," Mr. Bergstrand said. "They themselves were too passive, and like their young compatriots their passivity was caused by physical weariness."

"Despite the despair and passivity among the youth there is still hope for their salvation for daily the church is retrieving some of the lost youth."

THINGS TO COME

ERIE, Pa.—Mosquito-netting suits for hot weather are within the realm of fashion possibility, Paul Siple, a War Department biographer, told a General Electric science forum audience.

The netting should be held from the body by means of spacers. "Air flow will not be inhibited, but the skin will be protected from direct solar radiation and visibility," Siple said. "This will then permit the maximum utilization of air movement for comfort."

Confucius is believed to have been born in China in 551 B.C. and to have died in 479 B.C.

LIFE can Begin AFTER 40, IF.

Around 40 our energy lessens. But, experience has taught us to do our work with less effort. The years ahead should yield the greatest accomplishments, the most enjoyment and happiness. They can, too, if we avoid the kidney and bladder disorders such as Backache, Headache, Rheumatic Pains, Lassitude, Loss of Sleep and Energy which so often attack those around 40. For over half a century Dodd's Kidney Pills have been helping men and women to keep kidneys and bladder in good order. If you are nearing 40, or past it, for the sake of your health and a happier future use Dodd's Kidney Pills today! 125

OUR COMPLETE SHORT STORY—

When The Fire Falls

By GEORGE KAUFFMAN

Copyright
Wheeler Newspaper Syndicate

THE snows of Austria glowed with an inner warmth as evening came over the Alps. Day always stays longer in the snow than in the soil. Caught within the drifts it lies hidden from the night in a soft radiant light. A girl was skiing down a slope. Her skis cut through the bank like twin rapiers and threw up a flurry of snow as she arched, from side to side in the wind. Suddenly she whipped out of sight and crouched behind a ledge like a snow-rabbit hiding from the hounds. . . . Soon she was joined by another skier, a man.

"The point is," said General Mott, of the Gestapo, "skis leave tracks. Her skis leave tracks. Why don't you follow them?"

Young Captain Kroger hesitated. "Her marks vanish."

"So?" The General thought this over. "Come now, Kroger. You were ski-master at the Hotel Luuck. What did you do while you taught the fat swine of Austria to ski? Just teach them, it seems. And now many of these same Austrians are skiing over the Alps to Switzerland. This is fine . . . fine!"

Hotel Luuck was the ski-retreat of all Europe. Nestled in a glacial valley the hotel sat in the snows like an old hen over her brood of chicks, chalets which dotted the snow slopes. The past clientele never visited the hotel. The Nazi social set had taken it over, and Goering himself gave huge hunting-skiing parties there for all the European quislings.

The night General Mott arrived to take a personal hand in the affair of the vanishing ski-tracks, the staff of the hotel had prepared the traditional Fire Fall, an ageless ritual of the peoples of the Alps. From a hanging valley burning embers were dropped, filling the evening with fire-shadows.

The General had finished his dinner on the balcony off his suite. "This is splendid," he said, taking a breath of the brittle glacial air. "One almost forgets there is a war on."

"The war seems very remote in the valleys," said Kroger.

"Then why do the people co-operate with this underground ski-thing?" Kroger remained silent.

"The silence of these valleys have affected even mine Captain, no?"

"Here is the fire-fall, sir," Kroger pointed out over the balcony. From far up the night the embers began falling down the vast grey glacial walls like fiery serpents.

"Beautiful," murmured the General. "Just like a Nazi torchlight parade."

Then another stream of embers began trailing down the walls. As if pulled down by magnet they began to form a crude V on the night.

"Stop this," shouted General Mott, jumping to his feet. "Hunt them down. Making a fool of me, they. Hunt them down!" He turned to Kroger. "What have we ski-troops for?" Go get them. Place guards in all the villages. Shoot any civilian on the slightest excuse!"

Next morning the General was awakened early by his orderly. "We have just received word from field radio, sir, that they have captured the girl!"

"Ha! Splendid," laughed the General. "And you needn't tell me but the officer in charge was Captain Kroger."

That evening the girl was brought to the General by Kroger.

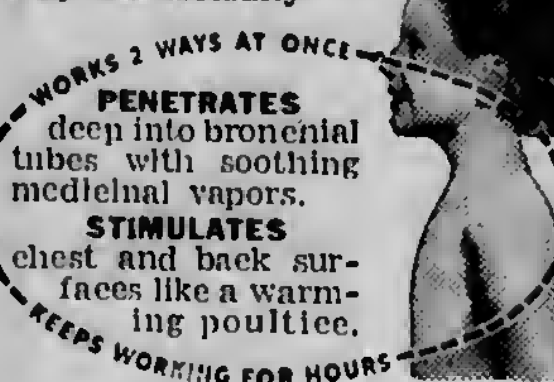

"Good evening," smiled the General. "I see you are beautiful. Mysterious women generally are. Tell me. Why do you help these Jews escape into Switzerland?"

"I help all who can no longer fight you inside Austria," she replied in firm level tones. "They continue to fight you elsewhere. This is no tourist business."

"You mean to say that you are not just helping the rich escape, but also putting out of our reach these

ACTS 2 WAYS TO RELIEVE MISERIES OF BRONCHITIS

Now get real relief from coughs, soreness and congestion of bronchitis—this double-action way that actually

WORKS 2 WAYS AT ONCE
PENETRATES deep into bronchial tubes with soothing medicinal vapors.
STIMULATES chest and back surfaces like a warming poultice.
KEEPS WORKING FOR HOURS

To get all the benefits of this combined PENETRATING-STIMULATING action, just rub throat, chest, and back with Vicks VapoRub at bedtime. Instantly VapoRub goes to work—2 ways at once as shown above—to ease bronchitis coughing, loosen congestion, relieve muscular soreness, and speed restful, comforting sleep. Often by morning most of the misery is gone. Get relief from bronchitis distress tonight with double-action, time-tested Vicks Vapo-Rub. . . . Try It!

criminal arsonists, these so-called patriots?"

"Every night and day. And when I am caught, someone else takes my place."

"This is fine . . . fine!" The General lit a cigarette. "Are you hungry?"

"Yes."

"Too bad. I'm not. All of a sudden I have lost my appetite." He thought a moment. "Come. We go down to Vienna—now. Both of us in my car. Kroger, you drive!"

The dull bluish light of the hotel garage clothed the General and the girl in a murky gloom as Kroger drove up with the car. "You see?" explained the General as they got in. "I came here for a rest, but I find a fox. Ha!"

"Pardon," interrupted Kroger. "You seem to be out of petrol."

"Impossible," said the General. "My car is always serviced completely. I'll look in the tank." He got out and bent over the gauge.

A shot crashed out and echoed about the garage like a hollow drumbeat. General Mott slumped to the concrete floor.

A sentry rushed up to Kroger and reported: "Sir, I just shot a man tampering with your car."

"Good work, Corporal . . . I shall remember you for this."

Captain Kroger drove off. Out in the crystal night, clear and bright between the glacial walls, Kroger called back to the girl, "Climb up front. We have enough petrol for Switzerland."

11-17

By ANNE ADAMS

Junior Miss Pattern

Slim princess lines of Pattern 4736 emphasize your slender waist. Three sleeve lengths. Easily made. Flat-topping flounced hat included.

Pattern 4736 comes in junior miss sizes 11, 13, 15 and 17. Size 13, dress, requires 2½ yards 54-inch fabric; hat takes ¾ yard fabric.

Send twenty cents (20¢) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

MAY LAST INDEFINITELY

H. Moore, secretary of the food distributors told the British United Press in Winnipeg recently that the shortage in wrapping paper and paper bags is not a temporary one but "that it may last a long time, perhaps for years." He says the shortage is caused by the unprecedented demand by the building trade and by UNRRA. He points out that consumers could make their own hold-all shopping bags and suggests oilcloth, especially for the purchase of fresh meats and other commodities that cannot be handled unwrapped.

SUCCESSFUL SEASON

Port Of Churchill Takes Stock After Grain Ships Leave

CHURCHILL, Man.—After the last two grain ships of the year left for England, officials of this Hudson Bay port took stock of its 1946 shipping season and surveyed its hopes for next year.

When the eighth and ninth freighters—the Fort Richelleu and the Hill Crest Park—sailed they brought the port's wheat exports this year up to an unofficial 2,800,000 bushels, fifth best season in point of number of ships and possibly the third best in quantity of shipments Churchill has enjoyed.

In addition to the wheat, the Dal-glish line ships which called here this season loaded pit props and some miscellaneous cargo after discharging whiskey, curling stones and china.

Every carload of wheat or grain sent to Churchill went over the 1000-mile Hudson Bay Railway, a single-track line that cuts through the northern fringes of the Canadian shield and then runs fairly straight over miles of spongy muskeg.

Almost all the stevedores and dock workers here were brought in from the "outside." There were approximately 160 men working around the docks and railway sheds.

Showed Gratitude

Skunk Proved It Was Capable Of Showing Appreciation

TORONTO.—Perhaps you never put much thought on the matter, but this story seems to prove that even skunks are capable of gratitude.

At Ontario's Muskoka Lake, a little striped woods pussy was indiscreet enough to get his head wedged fast into a quart jar. As he was pulling and tugging under a summer cottage, the owners heard him and came to investigate. They decided to shoot him to put him out of his misery but he got away. A few days later the woman of the house came upon the little skunk, his nose head still encased in the jar. Without stopping to figure out the consequences the woman eased the jar over the skunk's swollen jaws. And the little fellow—with a long look of gratitude, scampered off into the woods, leaving the woman as scent-free as a windy day in April.

Border Crossing

Aviation Conference Asks That Such Passing Be Made Easier

Simplification of border crossing procedures for pilots of private aircraft was urged at the Northwest Aviation Planning Conference held recently at Butte, Montana.

"While the conference felt border crossing should be made easier," Mr. Rundle said, "representatives from both sides felt safety should be considered. It was stressed that pilots should not fly in strange territory without adequate information of routes."

In this connection, the conference passed a resolution thanking the Canadian department of transport for its work in locating lost American fliers in Canadian territory."

Casein is processed into paper coatings, wall paints, adhesives, buttons and other products.

SELECTED RECIPES

COOKING FOR THE CROWD

Nearly every socially-minded housewife is at some time faced with the responsibility of feeding the crowd. It is a smart woman who can pull out of her file a few tried and true recipes for dishes that will adequately serve 20 people or more. Here are some recipes which have been tested in large quantity. These will lighten the burden of the supper committee and add new variety to the menu:

Chicken and Celery Casserole
2 quarts cooked chicken (x)
2 quarts chopped celery
2 cups white sauce
2 cups corn flakes

Cook celery until tender but still firm. Drain thoroughly. Use water as part of liquid in white sauce. Grease baking pans. Put in layer of diced, cooked chicken. Add layer of celery, another layer of chicken and so on. Pour white sauce over top. Roll corn flakes into crumbs and sprinkle on top. Bake in moderately hot oven (400 deg. F.) for five minutes or until thoroughly heated.

Yield: 20 One-cup servings.
(x) Approximately two 5-pound chickens. Use chicken fat for white sauce.

Corn Pudding

¾ cup butter
¾ cup flour
1 quart hot milk
4 teaspoons salt
¼ cup sugar
2 qts. canned corn, cream style
8 eggs

3 cups oven-popped rice cereal
1 tablespoon butter

Make white sauce; melt butter; add flour. Mix until smooth. Add hot milk slowly, stirring constantly. Cook sauce over hot water, stirring until thickened. Add salt and sugar to corn; mix with white sauce. Beat eggs and add to corn mixture. Turn into greased shallow pans 10 x 1½ inches.

Crush rice cereal into crumbs; melt butter and add to cereal. Sprinkle mixture over corn in baking dish. Place in pan of hot water and bake 15 minutes at 375 deg. F. Lower temperature to 350 deg. F. and continue baking for 45 minutes. Serve at once. Yield: 20 servings.

FORM WORLD ASSOCIATION

The international medical conference held in London decided to establish a world medical association composed of national associations. It will promote closer ties among the various world organizations and among individual doctors with the aim of helping all peoples to attain the highest possible level of health.

Henri Becquerel discovered radioactivity in 1896.

Using New Material

Colored Plastic Replacing Wood

Planking As Decks For Ships

The wooden planks of the Mauretania's decks are to be replaced by colored plastic. This new decking, which is just as strong as wood planking, has a number of advantages over the old type; it is easily washable, does not need holystoning, and will not absorb oil or grease. This plastic decking is a Clydeside development.

Green plastic has been tried successfully in the Blackburn, a vessel in naval service. It is claimed to be springy underfoot, proof against tropical heat or Arctic cold, and will not catch fire. It is restful to the eyes against sea glare.

Another use of plastics in British shipyards is on the Queen Elizabeth, whose hull is being treated below the waterline with a plastic composition.

Plastic Perspex

To Be Used In Repairing Defective Skulls

LONDON.—The plastic perspex, already extensively used in surgery, is also being used to repair defective skulls, Maj. George Blaine, M.D., reports in a current issue of the medical press.

Facial bones, the article says, could be corrected easily by the use of a plastic that can be molded to required shape. A missing nose or ear could be "masked" with a substance possessing the consistency, coloring and feel of the part to be replaced.

Dr. Blaine stated that certain types of plastics could be absorbed in living tissue.

Concrete and cement are not synonymous—cement is just one of the ingredients of concrete.

CANADA SAVINGS BONDS ARE 'SERVE YOURSELF BONDS'

One of the easiest things man does is to accept a habit. As the various Victory Loan campaigns approached during the war years, about the first question citizen asked was, "What is the objective this time?" Since money was needed to win the war and to take care of our men and women in uniform, the money objective in each campaign became a challenge to Canadian people.

Naturally, when the new issue of Canada Savings Bonds was announced, men and women promptly asked "What is the objective?" They were momentarily puzzled. A sale of bonds without goal to aim at just didn't seem fitting and wasn't easy to understand.

It is literally true that no prescribed sum of dollars is sought during the sale of Canada Savings Bonds which opens on October 15th. This sale was not prompted by a desire to fill up the money bags of the Government treasury. It is being launched to meet the keen desire of Canadians to continue their program of regular savings inaugurated by the Victory Loan and War Savings Certificates campaigns during the war years.

However, there is an objective associated with the approaching sale of bonds to the public. It might be described as the determination of those who are responsible for the sale of bonds in all provinces of Canada that all citizens shall have an opportunity to buy bonds. That is why the sale of the canvasses of the new Canada Savings Bonds is being so widely told, and why investment dealers and the banks are setting up facilities which will enable citizens to buy, no matter where they may be located.

Put another way, each Canadian gets up his own objective this time. Canada Savings Bonds have been created to help a man help himself.

The powerful position which Britain's aircraft industry holds today has been brilliantly demonstrated this month at the greatest aero show ever held in the United Kingdom. The exhibition took place at the Radlett Aerodrome, near London, on September 12 and 13. 3,000 buyers and experts from almost 60 countries saw more than 50 different types of United Kingdom military and civil aircraft and thousands of exhibits displayed by some 200 United Kingdom companies, manufacturers of aircraft, engines and components. The exhibition, organized by the Society of British Aircraft Constructors was designed not only to show the world something of the industries wartime and peacetime achievements but to act as a spearhead to its new export drive: the industries target is £15,000,000 annually for the next three years. This compares with £5,500,000 before the war. The Aero Show alone is confidently expected to result in several million pounds worth of orders, for delivery within the next 12 to 18 months.

Divided Christians have no answer for a divided world.

The split home is a destructive thing — like the split atom.

We must go beyond our duty to find a different world.

G.W.R.'s FIRST OIL-BURNING PASSENGER LOCO

The G.W.R. has now completed the conversion of the first of its passenger locomotives from coal to oil burning. The loco is No. 5955 "Garth Hall" which will be travelling on the London-Bristol service. The conversion from coal to oil was made owing to the coal shortage. 18 heavy freight oil burning locomotives are already in use. Photo shows:—A view of the first passenger loco to be converted from coal to oil burning. It will be employed on the London-Bristol service.

Fromm's Jewelry

Eddie Allen, with his romantic and his accordion, is almost a household name on "The Happy Gang" program as the "joke pot", even though the young tenor is still in his mid twenties. An ex-boy soprano, Eddie joined the "Gang" on a two-week try-out in 1938 and has been singing and playing on the Monday to Friday broadcasts from CBC's studio in Toronto ever since.

War Prisoners Must Return To Germany

OTTAWA.—German war prisoners working on sugar beet and other farms in Canada, who wish to remain permanently in this land of plenty must return to Germany. That is the final decision of the Dominion department of labor and immigration, it was learned.

Originally, some 8,000 German war prisoners were sent to Canada for safe-holding during the war. About half this number have been returned, either to Germany or to England to assist in repairing bomb wreckage. The remaining 4,000-odd, under the Geneva convention, to which Canada is a signatory, must be returned during the present month.

Many employers of these German war workers have found them excellent farm laborers. Hundreds of the Germans, now well aware of what has happened in their motherland, are anxious to remain in Canada as farm laborers not going wages. In cases where such a war captive wishes to remain voluntarily, the Geneva convention can be modified to suit the case.

The question of permitting those Germans who wish to remain in Canada to stay after the one-year period of captivity after the end of hostilities has expired, has been discussed by officials of the department of immigration and labor. The chief economic objection is that there are some 30,000 applications pending from European refugees, who have relatives in Canada, for admission to this country.

More than 6,000 of these refugees' applications have already been approved, and a much larger number are in categories sure to get approval as transport and economic conditions improve. Most of them are now being cared for in UNRRA camps in central Europe.

In view of these arrivals it was felt that there might be public objection, both economic and patriotic, to permitting any German war prisoners to remain permanently even at their own request in Canada. Hence, with the ending of the harvest, all of the Germans are due to be sent back to Germany during the current month.

RECORD FOR JUDGE

Chief Justice Harvey Of Edmonton Has Longest Service In Canada

EDMONTON.—Holder of the record in Canada for the longest term on a high court bench, Chief Justice Harvey, chief justice for 36 years, received congratulations on his 83rd birthday, October 1.

Sitting on a submission of the Alberta bill of rights to the appeal court, he was offered best wishes for continued health and a long life by Hon. Lucien Maynard, Alberta attorney-general.

Mr. Maynard said he offered congratulations on behalf of the Alberta government, the Bar association and counsel in the courtroom. He said he doubted if the chief justice record on the bench ever again would be equalled in Alberta or in Canada.

The attorney-general made a slip when he congratulated Chief Justice Harvey on being 84. The jurist corrected him laughingly and said, "It's nice to have nice things said about you while you're alive."

WILL FORGET DEBT

Ottawa Druggist Is Writing Off Small Amount Owed By Ribbentrop

OTTAWA.—Harry Skinner, an Ottawa druggist, read of the death sentence imposed on Joseph von Ribbentrop, former Nazi foreign minister, and said he was ready to forget a 38-cent debt.

Von Ribbentrop was once quite a figure in Ottawa social circles. He came to the capital in 1913 and was well established when he left hurriedly a few days before war was declared in 1914.

Just before he departed he hustled into Mr. Skinner's store, made a few small purchases, explained he was short of cash and said he would drop in and pay the next morning.

Mr. Skinner said he was ready to forget about it because Von Ribbentrop had other things to think about.

HELPS TWO WAYS

VANCOUVER.—Students of the University of British Columbia have contracted to sell their blood in aid of the campaign to raise funds for a memorial gymnasium. Students will donate their blood at Shughnessy military hospital and give the proceeds—\$20 a pint—to the fund.

VETO IS BLAMED

BRUSSELS.—The United Nations security council's balance "up to the present moment figures out to zero," Paul Henri Spaak, president of the UN, said in a speech. He blamed the veto. "As long as they (the major powers) are to defend their absolute sovereignty, no real peace is possible," Spaak told the Belgian Socialist party congress.

One gallon of concentrated mixture of insecticide will cover as much as an acre of certain types of foliage.

SUCCEEDS WALLACE

W. Averell Harriman, U.S. ambassador to Britain has been chosen to succeed Henry A. Wallace as U.S. secretary of commerce. Mr. Harriman plans to go to Paris within the next few days to talk with James F. Byrnes, Secretary of State. His former post in the London embassy is one to which he graduated from the U.S. embassy in Moscow. Prior to his service as ambassador to the Soviet Union, Harriman had served President Roosevelt as a top official of the National Recovery Administration and on special missions to London and Paris.

Canada's Wheat Exports Likely To Be Reduced

OTTAWA.—Total supplies of wheat for the 1946-47 season have been estimated by the Dominion bureau of statistics at 510,000,000 bushels, on the basis of the first official estimate of 440,567,000 bushels for Canada's 1946 grain crop and an estimated carryover at July 31 of 70,000,000 bushels.

In its monthly review of the world wheat situation, the bureau said that would leave total supplies approximately 54,000,000 bushels less than in 1946 and would put exports during the coming season "substantially below" the 340,000,000 bushels shipped last year.

Production of the 1946 U.S. crop was placed at 1,167,000,000 bushels, 44,000,000 bushels above the previous record of 1,123,000,000 bushels. In 1945, the carryover of old wheat at June 30 was estimated at about 101,000,000 bushels which, added to the new crop, gives a total supply of 1,268,000,000 bushels for the 1945-46 season, compared with total supplies of 1,404,000,000 bushels for 1945-46.

While exports from the United States during the current season will depend upon the urgency of demand, present plans call for the shipment of about 275,000,000 bushels, more than 100,000,000 bushels below the export figure of the last season.

Moisture conditions have been "extremely favorable" for the new grain crops in Argentina and an estimated 16,200,000 acres have been seeded to wheat this year. Assuming an average yield, total production may exceed the 200,000,000-bushel mark, about 60,000,000 bushels more than the amount produced in 1945-46.

Offsetting this more favorable production outlook is the threat of extensive locust damage and the likelihood of an extremely low carryover of old-crop wheat at the end of this year. Consequently, total supplies for the 1946-47 season are not likely to vary significantly from those of the present season.

Devastating drought in the major wheat-producing state of New South Wales has sharply reduced earlier Australian prospects for a substantially increased wheat crop this year against the 144,000,000-bushel crop of 1945-46. Early-season forecasts indicate the new crop may not exceed 155,000,000 bushels.

WEATHER IS FACTOR

Canadian Firm Making Furniture To Suit Conditions In England

COLLINGWOOD.—A reconverted aircraft plant here is making knocked-down furniture for the English market—and weather to match.

Due to the difference in humidity between this locality and the places to which the furniture is sent, the factory, scene of a new Canadian industry, has been fitted with humidifiers tailored to duplicate atmospheric conditions in England.

The plant is busy on an order for 15,000 bedroom suites, 2,000 of which have already been despatched to England, where they are assembled and finished.

FIRE ON LINER

LIVERPOOL, England.—Fire was extinguished within 20 minutes in the Cunard White Star liner Mauretania at her dock here. The fire was in a storeroom and was confined to smouldering cork insulation. There is no suspicion of arson but an enquiry will be held.

If you keep your dustpan well waxed, you will find it always looks clean, and the dust and dirt slips from the pan more easily.

QUESTION SETTLED

Vote On Free Navigation Of Danube River Carried Eight To Five

PARIS.—The American demand that the principle of free navigation of the Danube river be written into all Balkan peace treaties was accepted 8 to 5 by the Balkan economic commission over the loud protests of Russia.

Senator Arthur Vandenberg (R., Mich.) made his maiden speech before the peace conference in presenting American demands for internationalization of the river which is considered to be the most important single transportation artery in the economic life of Europe.

The Balkan commission, under Big Four orders to limit lengthy speeches, acted swiftly after American and Russian arguments on the proposal. The vote disposed of one of its most hotly contested problems only five days before the deadline for completion of all work in commissions.

CANADIAN APPLES

B.C. Making First Shipment Of 80,000 Boxes To Britain

HALIFAX.—The first shipment of British Columbia apples through Halifax this year will be loaded aboard the freighter Pacific Enterprise, scheduled to sail for the United Kingdom the end of this month, the vessel's agents said.

About 80,000 boxes will make up the shipment from the west coast. The freighter will also load 20,000 barrels of Nova Scotia apples.

ANXIOUS TO HELP

OTTAWA.—The people of Normandy, where many Canadian servicemen died in the invasion of Europe, are anxious to adopt the graves of the Canadian war-dead and tend them for Canadian relatives, the French information service said.

JOB'S ARE OFFERED

Farmers And Ranchers Around Swift Current Would Hire Polish Veterans

SWIFT CURRENT.—Definite word that some of the Polish war veterans being brought to Canada under a federal government scheme will be allocated to Swift Current district has been received by D. A. Kne, employment officer here.

About a dozen farmers and ranchers of the district, who had anticipated such a move locally, have already applied for permission to hire the men.

Federal regulations are that the men must be paid a minimum of \$45 a month and contracted for at least one year.

NON-STOP FLIGHT

Plane Made Trip From Australia To U.S. In 55 Hours

COLUMBUS, O.—When the Truulent Turtle, navy patrol bomber, landed at Port Columbus it completed a record-breaking non-stop flight of 11,237 miles from Perth, Australia. The unofficial elapsed time was 55 hours and 18 minutes.

The twin-engine Lockheed Neptune P2V, carrying a crew of four men and a baby kangaroo, thereby exceeded by 3,321 miles the non-stop mark of 7,916 miles set last November by the army's B29 "Dream Boat".

TO WORK IN NORTH

THE PAS, Man.—R.C.A.F. Lancaster converted bombers, operating from bases at Churchill, The Pas and Fort Smith, next summer will photograph Arctic Canada north of the 64th parallel. During the past summer three Mitchells photographed 250,000 miles of uncharted territory in the northwest territories, and northern tips of the three prairie provinces.

THIRTY-MINDED CANADIANS will buy Canada Savings Bonds and maintain the savings habit learned during the Victory Loans of war years. Here are \$70,000,000 worth of the new Savings Bonds being wheeled out of one of the huge Bank of Canada vaults at Ottawa preparatory to being distributed to banks and other financial houses where they go on sale. Joan Gilmour (left) and Gwen Tetlock have been Bank of Canada workers through most of the wartime government loans. Cons. W. J. Galins, R.C.M.P., doesn't seem to find this kind of guard duty very irksome.

LOSING MONEY—KAISERS SAY. Pennants don't matter when you're dealing in coconuts, Henry Kaiser, shipbuilding tycoon, told a Washington committee investigating wartime profiteering. "How can I remember mere million-dollar details in a billion-dollar business?" the builder demanded. He is shown, right, with son Edgar F. Kaiser. They're losing money, they say.

Britain Has Increased Old Age Pensions

LONDON.—Four million old people entitled to pensions of 26 shillings (\$5.20) weekly instead of 10 shillings for single persons, and 42 shillings instead of 11 for married couples.

The increases will cost the government £80,000,000 annually (\$320,000,000), but many pensioners have been receiving supplementary payments above the basic 10-shilling rate to help them with the increased cost of living.

A pensions officer said that when the means test is applied some non-contributory pensioners may find that the pension they receive will be less than 26 shillings.

As old people gained these new benefits, the working population began contributing more for its future security. Payments for health and insurance have been raised from two shillings six pence (50 cents) weekly to 4s for employed men between the ages of 18 and 65, and from one shilling eight pence to three shillings four pence for employed women between 18 and 60 years.

The pensions now are payable to men at 65 years of age and women at 60 on condition that they retire from industry, but they are being encouraged to work beyond the pension age by receiving an extra shilling every week for every 25 contributions made, and two shillings in the case of a man with a dependent wife. This means a bonus will be added for every six months work up to the age of 70 and a married man then could retire with a pension of three pounds, two shillings (\$12.40) weekly.

Problem Still Remaining For Allies To Solve

LONDON.—Aftermath of the Nuernberg trial faces the Allied authorities in Germany with decisions concerning the fate of tens of thousands of Nazis provisionally detained for security reasons.

It had been expected that the verdict on "criminal organizations" would create the legal basis for a permanent solution in all cases, whether the detained men are military leaders, S.S. men, high officials of the Nazi government, or Nazi party activists.

It has done so in many of these cases, but acquittals of both individuals and organizations may force the Allies to consider whether a man can be free of criminal responsibility and yet so deeply implicated politically in the activities of the Nazi regime that it would be unsafe to free him.

Under the Nuernberg verdict, a man will be considered a member of a criminal organization if he:

1. Belonged to the Nazi corps of political leaders in a position of command, to the Gestapo or S.S. (Security Service), or to any formation of the S.S. as a non-conscript member in time of war.

2. Can be proved to have had knowledge of the general activities of a criminal character pursued by these organizations.

Beyond that, people can only be punished for war crimes in which they had a personal share.

This leaves two important categories uncovered:

1. People who served the Nazi regime in a responsible capacity as military leaders, officials or economic organizers, without belonging to any of these criminal organizations or committing individual crimes.

2. People who served in the criminal Nazi organizations, or personally took part in concentration camp atrocities, but did so before the outbreak of war. These people are left by the verdict outside the jurisdiction of international law, and their deeds were mostly "legal" under Nazi law.

The solution for the second category would plainly lie in a special German law, but at present no German authority capable of country-wide legislation exists.

BETTER THAN EXPECTED

WINNIPEG.—Threshing returns in most Manitoba districts this year exceeded expectations both as to quality and quantity of grain, the province's final crop report for 1946 said. The bulk of the wheat graded No. 2 northern with some No. 1 northern and it was several years since grain crops were gathered in as early in the season or as satisfactorily.

GIVEN NEW POST

OTTAWA.—Prime Minister Mackenzie King announced the appointment of Gen. A. G. L. McNaughton as president and of three other Canadians as members of the atomic energy control board established under the Atomic Energy Control act passed at the last session of Parliament.

POLICE and PARENTS
(Hanna Herald)

The policeman's job is to arrest
lawbreakers. It is not his fault that
there are such people. There are far
too many parents who run to the
police in an effort to have him cor-
rect their children's misgivings. If
the parents would offer to impart a
little of their knowledge to their
children, the work of the police
would be greatly lightened.

A policeman's duty is to maintain
the law, and it is the duty of the
school teachers and parents to see
that the children understand and re-
spect it.
